Bar Steel

Chrome plated bar steel

Chrome plated bars are primarily used for piston rods in hydraulic cylinders because of the high surface hardness and minimal surface roughness.

Round and square bar steel

Both round and square bar steel are excellently suited for the manufacture of high-quality machine components.

Bar steel, up to 1000 mm diameter

This high-quality product is mainly used for the manufacture of gears for industrial applications.

Van Leeuwen, also the right address for bar steel!

Van Leeuwen Precisie B.V. is part of the Van Leeuwen Pipe and Tube Group, a globally operating trading company specialized in steel pipes, and pipe and tube applications. We are active in virtually all industrial sectors. With fifty branches spread throughout Europe, the Middle East, Asia, Australia, and North and South America, we ensure that materials are available anywhere in the world, customized wherever needed. Our employees have specialist knowledge of sourcing, project management, logistics and stock planning and work closely together with our customers in the Industry and Energy markets. The combination of global logistics and knowledge of products and customer applications makes Van Leeuwen a leading company in its markets.

Precision tubes and bar steel

In addition to a great variety of tubes, flanges and fittings, Van Leeuwen also supplies a wide range of bar steel. Bar steel is used in many applications in automotive, hydraulic, mechanical engineering and construction sectors. We decided to extend our assortment in order to improve our ability to meet your needs. Our delivery program includes the following products.

Quality

Hot Rolled	Bright
Ck 15	St 37-2 K
Ck 35	St 52-3 h 9
St.52-3	Ck 35 h 9
16 Mn Cr 5 G	Ck45 h9/ h11
20NiCrMo 2G	Ck45 h6/ h7/ g9
Ck 45	42CrMo S4 h9
42 Cr Mo S4 + Ca	20MnV6 h6
42 Cr Mo S4 V	free cutting steel 11 SMn Pb 30/37 h11
34 Cr Ni Mo 6 V	free cutting steel 11 SMn 30/37 h11
30 Cr Ni Mo 8 V	
X210CrW12	
X155CrVMo12.1	

Range of dimensions

Round	6 - 1000 mm diameter
Square	3 - 300 mm per side
Flat	8 x 2 mm - 300 x 50 mm
Hexagonal	5 - 80 mm per side

Services

If desired, we cut the material to the right length, with very precise tolerances. This service simplifies your production process and reduces the total costs in the production chain. We also offer various services related to logistics and quality control, including customer dedicated stocks. We deliver the bar steel together with your pipe material, as frequently as you wish.

Should you be looking for other products or services not listed here, or should you have any questions, please contact us. Our staff is happy to assist you.
